

SAFE FROM EMAIL SCAMS

Review emails closely for common baiting tactics

Never update the bank account, debit card, or credit card details using a link in the email

Use Email Filters to reduce spams in your inbox

Do not open or download attachments in email from unknown sources

FIS DATA
REFERENCE

SAFE FROM SMS SCAMS

Do not open URLs from unknown sources in SMS

Never install any app from a link in SMS

Do not call back on the number. If you do that, criminals will know you are ready for the trap

Always install applications in your smartphone from Google Play Store and Apple App stores
